

TEACHING ENGLISH ONE TO ONE

If you think you would be better at teaching English to just one person then this is the course for you. This course gives you everything you need to start teaching English effectively on a one-to-one basis.

It allows for more personal contact with a student and you may find it easier to relax and develop your own style. To apply for the course you should already hold a TEFL certificate or have at least 1 years' experience in teaching EFL. It is written by EFL professionals with a wealth of experience in planning and delivering practical one-to-one English classes. The One to One course has a unique interactive aspect; making use of videos and podcasts, which you can click on. Many previous students say it made the course more enjoyable. You will also find links to websites where you can find materials you can adapt to your own one-to-one classroom environment.

Teaching one-to-one can be more financially rewarding. You will be offering a more personal, intense service so you can charge more. But bear in mind who you are teaching and what they will be able to afford. As you work through the course you will look at design and how to create tailor-made lessons for your one-to-one students. The course includes about 30 hours of study and usually takes around 4 to 6 weeks to complete. However, as you can work at your own pace we allow up to 6 months and as the course is via email, it can be completed anywhere.

What will I get?

When you enrol, you will receive an email with attached documents. Two will be your modules/study booklets and one will be your answer booklet which you will complete in Word and send back via email. The other one is to be read before you start. It gives you advice on how to go about completing the course, for example time management and what time of day may be best for you to study. It also gives you an overview of what you will be required to do throughout the course and what topics will be covered (getting started, what and how to teach). This document also highlights there is a tutor on hand who you can email any questions to if you get stuck. This tutor will also give you feedback on your work.
